

Wilmington Sept. 27 1886

My Dear Dr. Gray,

I think it would be fair to let Tweedy have some of the honor and so if please to do it name it *C. Tweedyi*.\*

I have looked over Miss Cum-  
mings list and find to my surprise  
that I have not quite one fourth of  
the species. I did not expect this  
after a long exchange with Mac Gowan  
and receiving many Cape species in-  
directly from others. So I shall be  
very glad to take a set. I suppose  
Mr. Reapfield will also, as I know  
that the Academy is even more  
deficient than I am. I will send  
him the list at once and if he  
takes a set they may as well come

\* I noticed that I wrote in my Herb. Book a no of *Praxidys* and Book 1 Book no of *Tweedyi*

on together to the Academy.

The letter and list will go to  
Mr. Redfield today. It is too late  
to get a draft for the \$20.00 today.

I should like to hear from Miss  
Cummings again.

Very truly  
yours  
P. M. Aubrey
